

EUROPEAN SOCIETY FOR NEUROCHEMISTRY

LEIPZIG JULY 23 - 28 1990

Round Table

MOLECULAR & FUNCTIONAL ASPECTS OF CNS

NICOTINIC RECEPTORS

Chairperson Susan Wonnacott, (Bath, U.K.)

Paul Whiting
(Harlow, UK)

Structural diversity of neuronal nAChR
and its implications

Paul Clarke
(Montreal, Canada)

Functional aspects/localisation

Ralph Loring
(Boston, USA)

Electrophysiological Studies

Total allotted time: 90 min

Following a 5 min preamble by the chairperson each speaker should talk for no more than 20 min, leaving 5 min for discussion after each talk plus an additional 10 min at the end. Talks should give an up-to-date synopsis of the topic but should also be more speculative and provocative than Symposium presentations, in order to stimulate discussion consistent with the "Round Table" format.
